

GlycoUniverse GmbH & Co. KGaA is an automation and biotechnology company based in Potsdam, Germany, founded in 2013 as a spin-off from the Max Planck Institute. Our core platform, the **Glyconeer®**, enables the scalable, automated synthesis of complex glycans. We supply high-quality **glycan standards** and offer **custom synthesis**, **glycan array** printing and screening services. To expand our team in Golm-Potsdam, we are seeking an experienced, enthusiastic, and self-motivated Synthetic Chemist.

Experienced Synthetic Chemist (m/f/d)

Full-time

Automation

Carbohydrate

1st Nov-

Golm, Potsdam

Your Tasks & Responsibilities:

- Assess the feasibility of client requests and propose suitable synthetic routes.
- Carry out synthesis projects using established procedures and develop new methods where needed.
- Characterize compounds using NMR, HRMS, HPLC and prepare detail analytical reports.
- Present experimental results, literature reviews and research proposals to the team and clients.
- Support and supervise junior scientists and other team members.

Your Profile:

- You hold a Ph.D in chemistry; in-depth knowledge of carbohydrate synthesis is strongly preferred.
- You have proven experiences in multistep organic synthesis and purification of large & small quantity.
- You work independently, manage projects in parallel and prioritize tasks effectively to meet deadlines.
- You communicate effectively and enjoy working in an open, dynamic and multicultural environment.
- You maintain a tidy, safe workplace and document your procedures accurately and thoroughly.
- You are committed, proactive and reliable, and keen to learn new techniques and instruments.
- You are proficient in English; knowledge of another language is an advantage.
- Non-EU applicants must already hold a valid permit to work in Germany.

We Offer:

- A permanent position with a competitive salary as well as excellent opportunities for professional and personal development.
- A diverse, international team in a dynamic working environment that encourages creativity, innovation and teamwork.
- Regular company and team events.

Join us in advancing automated carbohydrate chemistry and helping GlycoUniverse become a global leader. Send your application in German or English, including a motivation letter, CV, academic transcripts and two letters of recommendation, to support@glycouniverse.de.
